## FAQS

---

### How do you know what hands and sizes to send?

Approximately 95% of golfers in North America are right-handed, which means they require a left-handed glove.

We custom-brand your client's logo as a detachable ball marker magnetically affixed to the flap of the glove. To ensure EVERY player gets just the right fit, we send more gloves and more ball markers than required. Since your client's logo is a detachable magnetic ball marker, you simply send us back the unused gloves.

### What is the turnaround time for orders?

Please allow 3 weeks after art approval for items to be shipped

### What retail brand are Top Gluv gloves closest to?

We work with the same manufacturers that sell to companies such as Footjoy and Callaway. Our quality is comparable to similar premium quality gloves. Our gloves have a reinforced palm for maximum durability and flex for performance and comfort.

### Are there style options?

There are three styles of golf gloves to choose from:

1. The Turnberry – most commonly ordered for tournaments
2. The Spyglass – ideal for VIP and tourney golfers
3. Acufit 1.1 – one universal male and female size
